Luang Prabang - Handle with Care

# Luang Prabang's Heritage

Luang Prabang has a wealth of tangible and intangible heritage. To ensure it contributes to local residents and supports sustainability, everyone should follow these guidelines.

## 1 PRESERVE ARCHITECTURE

If you're building a new property, renovating, or adding to an existing structure, please consult the official regulations in our UNESCO office.

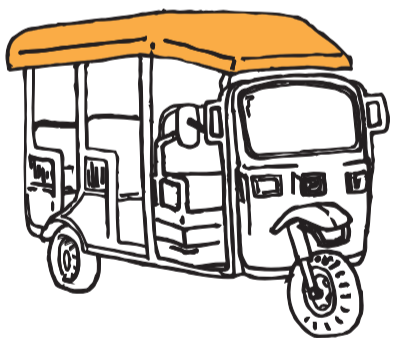

## 3 PROTECT THE ENVIRONMENT

Luang Prabang has pioneered many initiatives to make the town sustainable. Please sweep streets and sidewalks, reduce plastic and reuse materials.

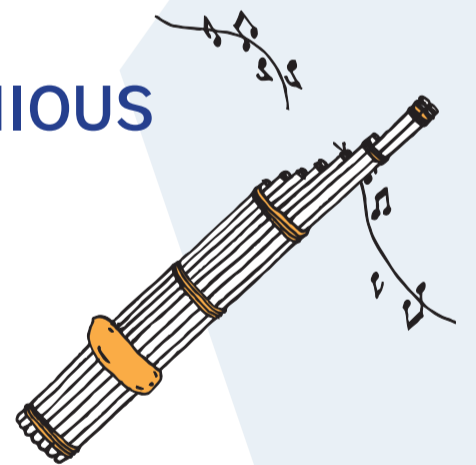

## 2 JOIN RITUALS AND PRACTICES

Everyone in town, including Lao and foreigners, should do morning alms, donate to local festivals and attend village celebrations. Allow your staff to join these activities!

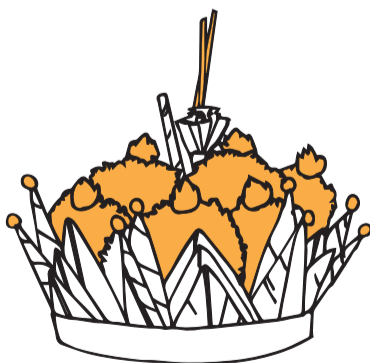

## 4 CREATE A HARMONIOUS ATMOSPHERE

Luang Prabang is home to an eclectic mix of restaurants, bars, and shops. Please follow signage, noise level, and music rules according to the UNESCO guidelines.

## 5 OPERATE PERMITTED VEHICLES

To maintain Luang Prabang's small-town charm, minibuses, any vehicles with items attached to the roof, or modified motorcycles must not be driven downtown.

## 6 WORK TOGETHER

Everyone must work together to help protect Luang Prabang's heritage! Please give back to the community, donate to village festivals and support local traditions.

The GIZ-EU Switch Asia Project Luang Prabang Handle with Care partners with UNESCO to promote the protection of tangible and intangible heritage across Luang Prabang.
